1. Executive Summary	6
2. Contract Notice	7

1. Executive Summary

Under task 4.1 led by the Lead Procurer, KEMEA has finalized and published the Tender documents following the principles of non-discrimination, transparency and equal treatment.

The main tender document is this Contract Notice which was dispatched the 10/06/2022 and published on the Tenders Electronic Daily of the European Commission (TED) on the 15/06/2022 at this link: <https://ted.europa.eu/udl?uri=TED:NOTICE:322919-2022:HTML:EN:HTML&tabId=1&tabLang=en>.

European Commission has been informed 30 days prior to the expected date of publication of the PCP contract notice and its content. The PCP contract notice contains information on the intended number of R&D providers that will be selected to start the PCP, the number of PCP phases and the expected duration and budget for each PCP phase. EU wide publication will be ensured for the PCP call for tender in English and the communication with stakeholders will be enabled at all stages throughout the PCP in English.

The PCP call for tender will remain open for the submission of tenders for at least 60 days, i.e. the 03/10/2022. Within this period the Consortium will provide its support to applicants through a matchmaking platform that is available on project's website, a series of information webinars, along with a Q&As section.

Section II: Object of the contract

II.1) Description

II.1.1) Title attributed to the contract by the contracting authority:

PRocurEments of innoVativE, advaNced systems to support security in public Transport – Pre-Commercial Procurement’ — ‘PREVENT PCP’.

II.1.2) Type of contract and location of works, place of delivery or of performance

Services

Service category No 4: Investigation and security services

Main site or location of works, place of delivery or of performance: FRANCE, GREECE, ITALY, SPAIN, PORTUGAL

II.1.3) Information on framework agreement

The notice involves the establishment of a framework agreement

II.1.4) Information on framework agreement

Framework agreement with several operators

maximum number of participants to the framework agreement envisaged: 6

Duration of the framework agreement

Duration in months: 20

Estimated total value of purchases for the entire duration of the framework agreement

Estimated value excluding VAT: 7526881.72 EUR

II.1.5) Short description of the contract or purchase(s):

PREVENT Call for Tenders invites all interested parties to present their offers to improve the security in public transport through innovative procurement of technological solutions.

The proposed technologies shall endow Public Transport Operators with solutions enhancing security situational awareness through:

1. Timely automatic detection of potentially dangerous unattended items in Public Transport Infrastructure and in public areas in the vicinity;
2. Identification and tracking of perpetrators;
3. Integration/interoperability of the technology in standard crisis management systems and VMS.

PREVENT is a research & development (R&D) services procurement which is conducted through a Pre-Commercial-Procurement (PCP).

II.1.6) **Common procurement vocabulary (CPV)**

73100000 Research and experimental development services, 73400000 Research and Development services on security and defence materials, 48730000 Security software package, 48900000 Miscellaneous software package and computer systems

II.1.7) **Information about subcontracting**

The tenderer has to indicate in the tender any share of the contract it may intend to subcontract to third parties and any proposed subcontractor, as well as the subject-matter of the subcontracts for which they are proposed

The tenderer has to indicate any change occurring at the level of subcontractors during the execution of the contract

The successful tenderer is obliged to specify which part or parts of the contract it intends to subcontract beyond the required percentage and to indicate the subcontractors already identified

II.1.8) **Lots**

This contract is divided into lots: no

II.1.9) **Information about variants**

Variants will be accepted: no

II.2) **Quantity or scope of the contract**

II.2.1) **Total quantity or scope:**

This PCP will be divided into three Phases. Each Phase will result in a competition between the Tenderers in such a way that the number of Tenderers shall decrease from one Phase to the next one to ensure selecting those that best address the technical challenge on which this PCP is based.

Tenderers that are awarded a Framework Agreement will also be awarded a specific Contract for Phase 1 (evaluation of tenders for the Framework Agreement and Phase 1 are combined). Tenderers are therefore asked not only to submit their detailed offer for Phase 1, but also to state their goals, and to outline their plans (including price conditions) for Phases 2 and 3.

Phase 1: Solution Design. Following the tendering stage, a Framework Agreement and a specific Contract for Phase 1 will be awarded to at least six (6) Contractors.

Phase 2: Solution Prototype. A Call-Off will be organised for Phase 2, with the aim of awarding at least four (4) Phase 2 Contracts. Only offers from Contractors that successfully completed Phase 1 will be eligible for Phase 2. The procurers will validate the Phase 2 prototypes in the lab of the Contractor and in 1 station of one PTO with around 50 cameras.

Phase 3: Operational Validation. A second Call-Off will be organised for Phase 3, with the aim of awarding a minimum of two (2) Phase 3 Contracts. Only offers from Contractors that successfully completed phase 2 will be eligible for phase 3. The procurers will validate the phase 3 prototypes in the four pilots' sites.

The information below refers to Phase 1 Specific Contract which defines the specific terms and conditions for the implementation of the PCP procurement of R&D services for the PCP phase 1. In particular, the Contractor shall provide the R&D services (tasks, deliverables and milestones) set out in the Request for Tenders (TD1) for this specific Phase 1 Solution design. The Contractor will design and submit for technical evaluation its individual views of the solution that meets PREVENT PCP requirements and functional specifications, and

will verify the technical, economic and organizational feasibility of their solution approach to address the PCP challenge.

The works carried out will also encompass the definition of verification procedures for the evaluation of the performance of the defined solutions according to technical parameters, thus leading to an evaluation of the level of compliance of the solutions with respect to the specification from a technical standpoint.

For more information on Phases 2 and 3, see the Call for Tenders.

Estimated value excluding VAT: 752688.19 EUR

II.2.2) Information about options

Options: no

II.2.3) Information about renewals

This contract is subject to renewal: no

II.3) Duration of the contract or time limit for completion

Duration in months: 5 (from the award of the contract)

Section III: Legal, economic, financial and technical information

III.1) Conditions relating to the contract

III.1.1) Deposits and guarantees required:

n/a

III.1.2) Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them:

See sections 5.2 and 5.3 of the Call for Tenders (TD 1)

III.1.3) Legal form to be taken by the group of economic operators to whom the contract is to be awarded:

See section 3.1. of the Call for Tenders (TD 1)

III.1.4) Other particular conditions to which the performance of the contract is subject, in particular with regard to security of supply and security of information:

See section 5.1 of the Call for Tenders (TD 1).

Moreover, Contracts must be implemented in compliance with the following place of performance obligation: 100% of the R&D activities described in this Request for Tenders, the Framework Agreement and the Specific Phase Contracts must be located in EU Member States and/or in countries associated to Horizon 2020.

The principal R&D staff working on each specific contract must be located in the EU Member States and/or in countries associated to Horizon 2020. The percentage is calculated as the part of the total monetary value of the contract that is allocated to activities performed in the EU Member States and/or in other countries associated to Horizon 2020. All activities covered by the contract are included in the calculation (i.e. all R&D and operational activities that are needed to perform the R&D services, e.g. research, development, testing and certifying solutions). This includes all activities performed under the contract by contractors and, if applicable, their subcontractors.

The Tenderer shall specify the geographical locations in which are located the computer data related to the service, the services to be provided, the persons participating in the contract.

The selected Contractors will have to ensure that all its infrastructures (technical or organizational) are managed within the European Union.

III.1.5) Information about security clearance:

III.2) Conditions for participation

III.2.1) Personal situation

Criteria regarding the personal situation of economic operators (that may lead to their exclusion) including requirements relating to enrolment on professional or trade registers

Information and formalities necessary for evaluating if the requirements are met: See sections 3.1, 3.2 and 3.3 of the Call for Tenders (TD1)

Criteria regarding the personal situation of subcontractors (that may lead to their rejection) including requirements relating to enrolment on professional or trade registers

Information and formalities necessary for evaluating if the requirements are met: See section 3.1.2 of the Call for Tenders (TD1)

III.2.2) **Economic and financial ability**

Criteria regarding the economic and financial standing of economic operators (that may lead to their exclusion)

Information and formalities necessary for evaluating if the requirements are met: n/a

Minimum level(s) of standards possibly required: n/a

Criteria regarding the economic and financial standing of subcontractors (that may lead to their rejection)

Information and formalities necessary for evaluating if the requirements are met: n/a

Minimum level(s) of standards possibly required: n/a

III.2.3) **Technical and/or professional capacity**

Criteria regarding the technical and/or professional ability of economic operators (that may lead to their exclusion)

Information and formalities necessary for evaluating if the requirements are met:

See section 3.3. of the Call for Tenders (TD1)

Criteria regarding the technical and/or professional ability of subcontractors (that may lead to their rejection)

Information and formalities necessary for evaluating if the requirements are met:

See section 3.1.2 of the Call for Tenders (TD1)

III.2.4) **Information about reserved contracts**

III.3) **Conditions specific to services contracts**

III.3.1) **Information about a particular profession**

Execution of the service is reserved to a particular profession: no

III.3.2) **Staff responsible for the execution of the service**

Legal persons should indicate the names and professional qualifications of the staff responsible for the execution of the service: yes

Section IV: Procedure

IV.1) **Type of procedure**

IV.1.1) **Type of procedure**

Restricted

IV.1.2) **Limitations on the number of operators who will be invited to tender or to participate**

Objective criteria for choosing the limited number of candidates: Only those Tenderers that sign and submit the NDA and the EURI Template will receive the RESTREINT UE/EU RESTRICTED and/or confidential information and be invited to submit a Tender. On a first step, in order to receive the RESTREINT UE/EU RESTRICTED and/or confidential information, interested tenderers will have to sign and submit: • An NDA (TD2) - To be filled in, signed and submitted by the Tenderer, by dully authorised person. All members of a Consortium (if applicable), all subcontractors (if applicable) and Third Parties (if applicable) also have to sign it by a duly authorised person. • An EURI Template (TD3) - To be filled in, signed and submitted by the Tenderer, by dully

authorised person. All members of a Consortium (if applicable), all subcontractors (if applicable) and Third Parties (if applicable) also have to sign it by a duly authorised person. The person signing both documents on behalf of the tenderer must have the necessary powers to bind the Tenderer.

IV.1.3) **Reduction of the number of operators during the negotiation or dialogue**

IV.2) **Award criteria**

IV.2.1) **Award criteria**

The most economically advantageous tender in terms of the criteria stated in the specifications, in the invitation to tender or to negotiate or in the descriptive document

IV.2.2) **Information about electronic auction**

An electronic auction has been used: no

IV.3) **Administrative information**

IV.3.1) **File reference number attributed by the contracting authority:**

IV.3.2) **Previous publication(s) concerning the same contract**

Prior information notice

Notice number in the OJEU: [2021/S 220-580937](#) of 12.11.2021

IV.3.3) **Conditions for obtaining specifications and additional documents or descriptive document**

IV.3.4) **Time limit for receipt of tenders or requests to participate**

3.10.2022 - 13:00

IV.3.5) **Date of dispatch of invitations to tender or to participate to selected candidates**

IV.3.6) **Language(s) in which tenders or requests to participate may be drawn up**

English.

Section VI: Complementary information

VI.1) **Information about recurrence**

This is a recurrent procurement: no

VI.2) **Information about European Union funds**

The contract is related to a project and/or programme financed by European Union funds: yes

Reference to project(s) and/or programme(s): This PCP procurement is part of a project that is funded under the European Union's Horizon 2020 research and innovation programme under the grant agreement No 101020374.

VI.3) **Additional information:**

As indicated in the EC Communication of 2007 related to PCP, this instrument falls outside the scope of the European Public Procurement Directives and the related remedies Directives.

A ground for the applicability of Directive 2009/81 is the existence of EU restricted information which the laws, regulations or administrative provisions in force in the Member State concerned require, for security reasons, to be protected from unauthorized access.

On IPRs, specific licence conditions of the developed solutions shall apply, also after termination of the framework agreement.

VI.4) **Procedures for appeal**

VI.4.1) **Body responsible for appeal procedures**

Official name: Administrative Court of Appeal of Athens

Town: ATHENS

Country: Greece

VI.4.2) **Lodging of appeals**

VI.4.3) **Service from which information about the lodging of appeals may be obtained**

VI.5) **Date of dispatch of this notice:**

10.6.2022
