OCTARINA

Company's Details

Company has competencies and looking for a consortium.	
Company Name	Octarina
Headquarters country	France
Company Webiste	https://www.octarina.com/en/
Representative Person	Stéphane Dupasquier
Contact E-mail	stephane@octarina.com
Phone Number	33620353903
Technology Branch	Computer vision/AI/3D
Expected support and expertise from potential partners	Use cases, video analysis
Support or expertise offered for the other partners	Computer vision IA/Machine learning, Augmented reality, 3D, Video analysis
Additional information	Visual synthetic dataset creation using 3D real time engine
Willing to share more information under a Non-Disclosure Agreement	Yes

Expert.ai

Company's Details

Company has competencies and looking for a consortium.	
Company Name	Expert.ai
Headquarters country	Italy
Company Webiste	https://www.expert.ai/
Representative Person	Gianluca Sensidoni
Contact E-mail	gsensidoni@expert.a
Phone Number	0039 3356595360
Technology Branch	AI/NLU deep semantic technology
Expected support and expertise from potential partners	We are looking for a Consortium or pillar partners for joined participation at this PCP.
Support or expertise offered for the other partners	We are a technology company focused on Natural Language Understanding (NLU) by means of deep semantic algorithms based on either on Ontology/Taxonomy or Machine/Deep learning. The target is to extract entities, relations, categories, emotions, stylometric attributes, from unstructured contents on different domains and languages.
Additional information	Natural Language Understanding deep semantic technology finalized to analyze unstructured contents coming from different type of sources either online or offline.
Willing to share more information under a Non-Disclosure Agreement	Yes

Streamwide

Company's Details

Company has competencies and looking for a consortium.	
Company Name	Streamwide
Headquarters country	France
Company Webiste	https://www.streamwide.com/en/
Representative Person	Benjamin Lamour
Contact E-mail	blamour@streamwide.com
Phone Number	+33643254033
Technology Branch	critical communication, interoperability with video management system (VMS), mobility, crisis management
Expected support and expertise from potential partners	Integrator able to generate value through integration mixing ous solution and others.
Support or expertise offered for the other partners	Web and mobile software solutions technical, sales and marketing support interoperability via API / SDK features: messaging, file sharing, voice, emergency, videostreaming, digitized process => bring communication & media in real-time between control room and field agent.
Additional information	n/a
Willing to share more information under a Non-Disclosure Agreement	Yes

R-OPS

Company's Details

Company has competencies and looking for a consortium.	
Company Name	R-OPS
Headquarters country	France
Company Webiste	https://r-ops.fr/
Representative Person	Eric Barre
Contact E-mail	ebarre@r-ops.fr
Phone Number	0698852913
Technology Branch	Anomaly Detection
Expected support and expertise from potential partners	Prototype/Design/Validation
Support or expertise offered for the other partners	We develop a product with Neuro-symbolic AI for Anomaly Detection, see: https://r-ops.fr/guardian/
Additional information	n/a
Willing to share more information under a Non-Disclosure Agreement	No

Actia Telecom

Company's Details

Company has competencies and looking for a consortium.	
Company Name	Actia Telecom
Headquarters country	France
Company Webiste	https://www.actia.com/en/
Representative Person	Fabrice Desclaux
Contact E-mail	fabrice.desclaux@actiatelecom.fr
Phone Number	+33 668 72 13 67
Technology Branch	Railway digital embedded systems
Expected support and expertise from potential partners	Video analysis expertise
Support or expertise offered for the other partners	CCTV systems
Additional information	n/a
Willing to share more information under a Non-Disclosure Agreement	No

STIM

Company's Details

Company has competencies and looking for a consortium.	
Company Name	STIM
Headquarters country	France
Company Webiste	https://stim.fr/
Representative Person	Pablo Oliver
Contact E-mail	pablo.oliver@stim.fr
Phone Number	0666478072
Technology Branch	Videosecurity solutions
Expected support and expertise from potential partners	We're looking to IA analysis skills.
Support or expertise offered for the other partners	We're experts dealing with images. From hardware to software and services or cameras, we bring a complete range of activities dedicated to cover customized security solutions.
Additional information	n/a
Willing to share more information under a Non-Disclosure Agreement	Yes

La Javaness

Company's Details

Company has competencies and looking for a consortium.	
Company Name	La Javaness
Headquarters country	France
Company Webiste	https://www.lajavaness.com/?lang=en
Representative Person	Timothée Alspektor
Contact E-mail	timothee@lajavaness.com
Phone Number	0666806912
Technology Branch	Artificial Intelligence
Expected support and expertise from potential partners	<p>Hello, We are a French company specialized in AI (80 employees, based in Paris) with the deployment of more than a hundred project, in public and private sector. Our website : www.lajavaness.com</p> <p>As part of PCP we would be interested in a company that has experience on camera systems, that is to say the collection and first processing of video images before analysis by AI.</p> <p>We would take care of the algo model part where we have great expertise.</p>
Support or expertise offered for the other partners	<p>We have a team of 80 people that are only and exclusively doing AI solutions.</p> <p>We've been working on this sphere over 6 years, still with high growth, and we can bring top techno, people and reactivity regarding this AI solution.</p> <p>Furthermore, we've worked before on TRL type projects such as this one.</p>
Additional information	It would be great if the partner had expertise in the transportation sector.
Willing to share more information under a Non-Disclosure Agreement	No

Synectics

Company's Details

Company has competencies and looking for a consortium.	
Company Name	Synectics
Headquarters country	United Kingdom
Company Webiste	https://synecticsglobal.com/en
Representative Person	Juergen Fuchs
Contact E-mail	juergen.fuchs@synx.com
Phone Number	+491703265608
Technology Branch	ICT - European SME develops, designs and supplies Surveillance Command&Control management systems for PT environment
Expected support and expertise from potential partners	We are looking for a consortium that carries out: - technical&administrative project management of consortium members; - R&D activities with regard to required functionalities at subsystem level, i.e. abandoned luggage identification, person tracking systems - demonstrating a decent background and achievements in this field.
Support or expertise offered for the other partners	We will bring to the project: - the ability to research & develop an advanced crisis; management system based on a resilient COTS platform - ensure interoperability with the operators' legacy systems; - GUI development to visualize mission critical information with regard to superior usability; - support testing of prototype/pilot installations.
Additional information	n/a
Willing to share more information under a Non-Disclosure Agreement	Yes

IDEMIA Identity & Security

Company's Details

Company has competencies and looking for a consortium.	
Company Name	IDEMIA Identity & Security
Headquarters country	France
Company Webiste	https://www.idemia.com/
Representative Person	Philippe Hercelin
Contact E-mail	philippe.hercelin@idemia.com
Phone Number	+33761802024
Technology Branch	Computer Vision for Public Security
Expected support and expertise from potential partners	VMS provider (Analog Camera), Crisis Alert Management System, System Integrator
Support or expertise offered for the other partners	Video analytics platform: Pedestrian re identification, luggage detection and forensic tools...
Additional information	New object detection
Willing to share more information under a Non-Disclosure Agreement	Yes

Solidshield

Company's Details

Company has competencies and looking for a consortium.	
Company Name	Solidshield
Headquarters country	France
Company Webiste	https://www.solidshield.com/
Representative Person	Vincent Lefebvre
Contact E-mail	vincent@solidshield.com
Phone Number	066359190
Technology Branch	Software Security
Expected support and expertise from potential partners	n/a
Support or expertise offered for the other partners	We are offering software security solutions, applied on software ready to deploy binary files, providing integrity and confidentiality preservation as well as use right enforcement. Our solution core design criteria is simplicity with an automated workflow. We would bring to the consortium solution a guarantee that the solution code, once deployed in the public transport infrastructure is integrated and confidential and use at secret-provisioned platforms only (if that restriction is desired).
Additional information	n/a
Willing to share more information under a Non-Disclosure Agreement	Yes

ACIC

Company's Details

Company is a consortium and looking for a specific partner	
Company Name	ACIC
Headquarters country	Belgium
Company Webiste	https://www.acic.eu/en/
Representative Person	Christophe Parisot
Contact E-mail	parisot@acic.eu
Phone Number	+32 65 39 43 80
Technology Branch	Video analytics
Expected support and expertise from potential partners	People recognition in a representative multi camera setup.
Support or expertise offered for the other partners	Abandoned object detection with association to a person.
Additional information	n/a
Willing to share more information under a Non-Disclosure Agreement	Yes

Two-i

Company's Details

Company has competencies and looking for a consortium.	
Company Name	Two-i
Headquarters country	France
Company Webiste	https://two-i.com/
Representative Person	Guillaume Cazenave
Contact E-mail	guillaume.cazenave@two-i.fr
Phone Number	+33680602529
Technology Branch	Video Content Analysis (VCA)
Expected support and expertise from potential partners	VMS capabilities or any relevant part that can add value to VCA.
Support or expertise offered for the other partners	Full platform of AI based VCA. Dedicated R&D departement. Live analysis platform. Object detection and tracking capabilities.
Additional information	n/a
Willing to share more information under a Non-Disclosure Agreement	Yes

ACIC

Company's Details

Company has competencies and looking for a consortium.	
Company Name	ACIC
Headquarters country	France
Company Webiste	https://two-i.com/
Representative Person	Alexandre de Halleux
Contact E-mail	dehalleux@acic.eu
Phone Number	+32491611080
Technology Branch	Video Analytics and AI solution provider
Expected support and expertise from potential partners	Partner in biometric data
Support or expertise offered for the other partners	We have a wide range of existing and proven video analytics and AI solutions
Additional information	ACIC is based in Mons in Belgium and was created in 2003. Our team is mainly composed of engineers. We are a total of 10. We own our algorithms, So we can easily work the codes according to the needs.
Willing to share more information under a Non-Disclosure Agreement	Yes

Wintics

Company's Details

Company has competencies and looking for a consortium.	
Company Name	Wintics
Headquarters country	France
Company Webiste	https://wintics.com/en/home/
Representative Person	Matthias Houllier
Contact E-mail	matthias.houllier@wintics.com
Phone Number	+33670921168
Technology Branch	AI / video analytics
Expected support and expertise from potential partners	Integrators, experts in hardware (cameras, servers) and software (VMS) to be able to offer a fully-customized security solution.
Support or expertise offered for the other partners	Wintics is a French innovative software company specialized in intelligent video analysis for smart cities and mobility operators. By leveraging the latest AI innovations, our software automatically extracts insightful data from any camera and offers the best video analysis applications for our clients (traffic analysis, bicycle lanes monitoring, crossroads management, car-pooling detection, tolling systems, crowd analysis in public transportation, automatic detection of hazardous urban situations).
Additional information	We have an international team of AI and software engineering experts We have strong experience in putting AI into production : our software has been running for more than 3 years on the field
Willing to share more information under a Non-Disclosure Agreement	Yes

GTD International

Company's Details

Company has competencies and looking for a consortium.	
Company Name	GTD International
Headquarters country	Spain
Company Webiste	https://www.gtd.eu/en
Representative Person	Clément Delbouys
Contact E-mail	clement.delbouys@gtd.eu
Phone Number	+33762335200
Technology Branch	IT system integration & AI
Expected support and expertise from potential partners	Integrators, experts in hardware (cameras, servers) and software (VMS) to be able to offer a fully-customized security solution.
Support or expertise offered for the other partners	n/a
Additional information	n/a
Willing to share more information under a Non-Disclosure Agreement	Yes

AERTEC

Company's Details

Company has competencies and looking for a consortium.	
Company Name	AERTEC
Headquarters country	Spain
Company Webiste	https://aertecsolutions.com/en/
Representative Person	Rodrigo Valdivieso
Contact E-mail	rvaldivieso@aertecsolutions.com
Phone Number	671654018
Technology Branch	Aeronautical engineering - unmanned aircraft systems/drones/UAV/RPAS
Expected support and expertise from potential partners	Cover the areas of image/video recognition, handling of databases, and emergency/first response management.
Support or expertise offered for the other partners	Drone technology: from autopilots to platforms to management and ground control.
Additional information	Design of the complete drone system: long range capabilities for sustained control over lineal infrastructures like roads, railroads, borders, coasts and large areas.
Willing to share more information under a Non-Disclosure Agreement	Yes

Intracom Telecom Greece

Company's Details

Company is a consortium and looking for a specific partner.	
Company Name	Intracom Telecom Greece
Headquarters country	Greece
Company Webiste	http://intracom-telecom.com/
Representative Person	Fanourios Kazouris
Contact E-mail	fkazouris@intracom-telecom.com
Phone Number	00306942235705
Technology Branch	Security Integrated Systems
Expected support and expertise from potential partners	R&D in algorithms for video analytics and video forensic
Support or expertise offered for the other partners	Crisis management system (PSIM), GIS system and integration with VMS and other sensors
Additional information	n/a
Willing to share more information under a Non-Disclosure Agreement	No

Datakalab

Company's Details

Company is a consortium and looking for a specific partner	
Company Name	Datakalab
Headquarters country	France
Company Webiste	https://www.datakalab.com/?lang=en
Representative Person	Stephen Bauer
Contact E-mail	sb@datakalab.com
Phone Number	0643075510
Technology Branch	Video Analytics and Neural Network Performance ptimisation
Expected support and expertise from potential partners	Datakalab is an AI software and IP provider and wishes to partner with other organisations that can lead project implementation, integration with VMS and Hypervisor solutions and general project support for the key PCP Prevent stakeholders.
Support or expertise offered for the other partners	Datakalab has two main competencies: 1/ A video analytics solution that is GDPR compliant that is capable of processing video feeds in real time and with high precision on as little as a single CPU core. 2/ The ability to optimize the neural network algorithms of others without data so they can run as efficiently as possible on limited edge computer power as well as automatically self adapt to different camera viewing conditions.
Additional information	n/a
Willing to share more information under a Non-Disclosure Agreement	Yes

INRIA

Company's Details

Company has competencies and looking for a consortium.	
Company Name	INRIA
Headquarters country	France
Company Webiste	https://www.inria.fr/en
Representative Person	Emilie Bailly
Contact E-mail	emilie.bailly@inria.fr
Phone Number	+33765155378
Technology Branch	IA/ Vision, perception and multimedia interpretation
Expected support and expertise from potential partners	System integrator: Command & Control management systems, interoperability systems (technical & legal), use case integrator Good understanding of railway environment, video management system (VMS) infrastructures and crisis management Good understanding of AI
Support or expertise offered for the other partners	Learning machine for detection and tracking (supervised and unsupervised), activity recognition, real time systems, Object tracking and motion analysis, Neural networks. Automatic Image processing.
Additional information	Inria is the French national institute for research in digital science and technology. The INRIA scientist team identified on Prevent PCP is specialised in AI and tracking, and has already led research works with SNCF/RATP on the detection of abnormalities and abandoned baggages.
Willing to share more information under a Non-Disclosure Agreement	Yes

BriefCam Ltd

Company's Details

Company has competencies and looking for a consortium.	
Company Name	BriefCam Ltd
Headquarters country	USA
Company Webiste	https://www.briefcam.com/
Representative Person	Florian Leibovici
Contact E-mail	florian.leibovici@briefCam.com
Phone Number	+972528597953
Technology Branch	Video Content Analytics Technology based on AI deep learning algorithms combined with patented video synopsis technology
Expected support and expertise from potential partners	VMS based solutions with expertise in objects tracking
Support or expertise offered for the other partners	<p>By harnessing the power of artificial intelligence and deep learning, BriefCam transforms video into valuable insights for rapid video review and search, as well as patented VIDEO SYNOPSIS® technology; real-time alerting; and quantitative video insights.</p> <p>BriefCam increases operational efficiency for people, companies and communities to realize the value of their video through its innovative, comprehensive video analytics platform designed for flexibility and scalability with market leading accuracy, performance and user experience.</p>
Additional information	With 1 billion surveillance cameras expected to be installed by the end of 2022 (Source: Omdia) the amount of video recorded is overwhelming. There are simply not enough human eyes to review it all, and its beyond human capacity to analyze the depth and breadth of its content. Through BriefCam's comprehensive video analytics platform, organizations can rapidly detect, track, identify, search and view thousands of objects in every scene, and understand trends gleaned from video

	<p>content, totally transforming how organizations use video. As the industry's leading provider of Video Content Analytics solutions, BriefCam enables customers to:</p> <ul style="list-style-type: none">• Rapidly search and identify people and objects of interest• Receive real-time notifications of critical events• Dynamically analyze trends in video content to influence and optimize operations <p>The depth of BriefCam's video analytics and cross functional applications maximize the ROI of video surveillance and help transform how organizations operate.</p>
Willing to share more information under a Non-Disclosure Agreement	Yes

SNEF Connect

Company's Details

Company has competencies and looking for a consortium.	
Company Name	SNEF Connect
Headquarters country	France
Company Webiste	https://www.snef.fr/snefconnect/
Representative Person	Jérémy Albergne
Contact E-mail	jeremy.albergne@snef.fr
Phone Number	0614555449
Technology Branch	VMS integrator
Expected support and expertise from potential partners	Software vidéo analysis
Support or expertise offered for the other partners	Experience in urban video and safety video
Additional information	<p>- We are looking for experts in safety studies and in public transport as well as partners in video development.</p> <p>- We integrate complete video solutions, from the installation of cameras, programming, software sizing to the training of our customers as well as maintenance</p>
Willing to share more information under a Non-Disclosure Agreement	No

Numalis

Company's Details

Company has competencies and looking for a consortium.	
Company Name	Numalis
Headquarters country	France
Company Website	https://numalis.com/
Representative Person	Arnault Ioualalen
Contact E-mail	projet@numalis.com
Phone Number	+33 4 67 13 00 93
Technology Branch	Artificial Intelligence
Expected support and expertise from potential partners	We are looking to join a consortium that has expertise in AI (video analytics), so that we can help develop the NN and boost safety, understanding and acceptability.
Support or expertise offered for the other partners	Numalis is a software editing SME located in Montpellier that provides tools and services to help with the design and validation of AI systems. To do this, Numalis uses its expertise in AI analysis by considering formal methods to measure their robustness and explicability. More precisely Numalis focus on the formal proof of safety properties of AI systems, in order to improve the trust in AI by every stakeholder.
Additional information	We have an expertise concerning transportation sector, as we are already working with the main french railway company. And we also have an expertise concerning AI standardization through the actions of Mr. Ioualalen, Numalis' CEO, involved in ISO/IEC standardization committees, CEN CENELEC, AFNOR and the French High Health Authority.
Willing to share more information under a Non-Disclosure Agreement	Yes

Bee the Data

Company's Details

Company has competencies and looking for a consortium.	
Company Name	Bee the Data
Headquarters country	Spain
Company Website	https://www.beethedata.com/
Representative Person	Juan Guilarte
Contact E-mail	juan.guilarte@beethedata.com
Phone Number	+34 609070455
Technology Branch	Artificial intelligence: Research & Development of computer vision & other machine learning algorithms
Expected support and expertise from potential partners	<ol style="list-style-type: none">1. Expert company in EU tenders2. Ability to develop HW3. Long-term business relationship
Support or expertise offered for the other partners	<ol style="list-style-type: none">1. R&D company in AI algorithms for computer vision2. Own algorithms3. Identification and tracking people and vehicles4. Algorithms for detecting suspicious objects (bags, weapons, etc.)5. Embedded HW specialists6. Algorithms tested in the international market for 6 years7. Provide the UAV equipment used to capture the images that are to be analyzed.8. Provide the SW and HW needed to perform on-edge analytics of the video feed of the UAV.
Additional information	<p>We develop proprietary machine learning algorithms that are able to perform, among other things, face recognition, person/vehicle detection/tracking, object detection, unattended object detection, OCR, etc.</p> <p>We are specially focused on edge algorithms that can run in small, portable embedded devices such as the ones that can be deployed alongside a UAV for minimum latency.</p>
Willing to share more information under a Non-Disclosure Agreement	Yes
